

MAY 2025

GUIDELINES TO APPLICANTS

1. If you meet the requirements, kindly email a detailed CV to the relevant Practitioner/Administrator (Human Resources), quoting the reference number and the job title. Should you be in possession of a foreign qualification, it must be accompanied by an evaluation certificate from the South African Qualification Authority (SAQA).
2. Proof of current registration with a Professional body (e.g., HPCSA, SANC, etc.), CPD compliance status report and other supporting documents should accompany all applications e.g., qualification's identity document, driver's license etc.
3. Response Email addresses of the relevant HR representative and is supplied at the end of each regional advert. The onus is on the applicant to ensure that their application has been received. Incomplete applications and applications received after the closing date will not be considered.
4. Candidates' credentials will be subjected to criminal record checks, citizen verification, financial record checks, qualification/Study verification, previous employment verification, and social media accounts behavior/comments verifications.
5. Candidates may be required to undergo competency/psychometric assessments, presentations, typing tests, or any other related assessments.
6. All health professional roles may be subjected to further assessment in line with the applicable proficiency matrix to determine the correct level.
7. At its discretion, The NHLS reserves the right to remove the advertisement and or not to appoint.
8. Correspondence will be limited to shortlisted candidates only.
9. These positions are open to all employees of the NHLS Including the employees who are on contract in similar or different positions.
10. Internal employees are required to complete a period of twelve months in their current role before they can be eligible to apply for transfer.
11. The NHLS is an equal opportunity, affirmative action employer. The filing of posts will be guided by the NHLS employment Equity Targets.
12. Successful applicants will be remunerated on the entry level of the published pay scale associated with the advertised position grade and in line with the recruitment and selection policy, salary offer clause. This means that the remuneration of an applicant who is successful for a position that is lower than his/her current job grade will be adjusted downward with effect from the date of appointment.
13. **This is an open advert. External applicants are welcome to apply for this bulletin**

**NATIONAL HEALTH
LABORATORY SERVICE**

CLOSING DATE: 29 MAY 2025

KZN REGION

BUSINESS UNIT: HARRY GWALA-UGU
DISCIPLINE: CLINICAL PATHOLOGY
LOCATION: MURCHISON LABORATORY
POSITION: MEDICAL TECHNOLOGIST (RE-ADVERTISEMENT)
PAY GRADE: MT1
REFERENCE NUMBER: KZNCTK0325/001-13 (85200-003-8014)

Main Purpose of the Job

Conducts and monitors a variety of diagnostic analyses of patient specimens to provide accurate laboratory test results to aid in and confirm clinical diagnosis and treatment therapies.

Key Job Responsibility

Operational efficiency of laboratory

- Ensure compliance with health and safety measures at all times – each day/month/year
- Perform preventive equipment maintenance performed as per set schedule
- Daily compliance - Record temperature readings and equipment maintenance in accordance with relevant SOPs ensuring documents are accessible and retrievable
- Compliance with in-lab TAT and upholding the standard each day
- Efficient stock control on bench
- Receive samples and determine if sample is acceptable to proceed with further analysis
- Perform tests in accordance with SOPs
- Verify test results

QMS

- Understand the physical and chemical principles of the various analyses performed
- Complete corrective action and troubleshooting logs for QC and equipment failures
- Run Instrument Quality Controls ("IQC") and EQA
- Record Non-Compliance ("NC")
- Record Customer Complaints
- Print and action Overdue and Pending List.

Assessments of results/Special stains/Interpretation of results

- Identify results that are outside expected finding or clinically established reference ranges and ensure as per SOP and report any abnormal results
- Perform Data Checks as per SOP
- Uncertainty of measurement
- Inter-lab comparisons and validations

Teaching, Training & Dev of Laboratory staff

- Attend actively CPD activities
- 1x CPD presentation per annum in the 2nd and 3rd year.

Minimum requirements & key competency

- National Diploma: Biomedical Technology/ Bachelor of Health Science: Laboratory Science / NQF level 6 or 7
- Registration with the HPCSA as a Medical Technologist in **Clinical Pathology**
- Perform sampling and analysis of blood, tissue and body fluids
- Preparation of samples for examination
- Knowledge of the usage of specialised instrumentation
- Knowledge of infection control and sterilisation protocols
- Accurate interpretation of results

- Understand the physical and chemical principles of the various analyses performed
- Complete corrective action and troubleshooting logs for QC and equipment failures
- Run Instrument Quality Controls ("IQC") and EQA
- Record Non-Compliance ("NC")
- Record Customer Complaints
- Print and action Overdue and Pending List.

Assessments of results/Special stains/Interpretation of results

- Identify results that are outside expected finding or clinically established reference ranges and ensure as per SOP and report any abnormal results
- Perform Data Checks as per SOP
- Uncertainty of measurement
- Inter-lab comparisons and validations

Teaching, Training & Dev of Laboratory staff

- Attend actively CPD activities
- 1x CPD presentation per annum in the 2nd and 3rd year.

Minimum requirements & key competency

- National Diploma: Biomedical Technology/ Bachelor of Health Science: Laboratory Science / NQF level 6 or 7
- Registration with the HPCSA as a Medical Technologist in **Clinical Pathology**
- Perform sampling and analysis of blood, tissue and body fluids
- Preparation of samples for examination
- Knowledge of the usage of specialised instrumentation
- Knowledge of infection control and sterilisation protocols
- Accurate interpretation of results
- Establish and monitor programmes that data accuracy
- Accuracy and organisational skills
- Attention to detail, striving for an error free standard
- Ability to identify problems and troubleshoot
- Ability to work independently and collaboratively
- Communication skills (verbal, written & presentation)
- Computer Literacy
- Time Management and evaluation skills.
