RFQ NO: 1505557

DESCRIPTION: PROFESSIONAL SERVICE TO CONDUCT INTERNAL ENGAGEMENT SURVEY

9 TECHNICAL / FUNCTIONAL EVALUATION CRITERIA

Next step evaluation is the “technical” or so called “functional” evaluation which is purely based on NHLS specifications and Scope of Work. NHLS end-user department (who requested the RFQ), Procurement Services, Finance and or subject specialists are part of the Cross Functional Evaluation Team (CFET) meeting which is chaired by the Procurement Officer Functionality is the technical evaluation of the bidders' proposal.

Should functionality be included in the RFQ as a threshold, the RFQ document must clearly state the minimum score to be achieved if bidders are to be further evaluated on price and preference. Responses that do not meet the threshold for technical will not progress further. (if applicable)

The final stage of evaluation is done after the CFET has reached their verdict and is done by NHLS Procurement Services. B-BBEE score (commercial evaluation) is added in order to get the final order of merit for the bidders being evaluated.

Bid will be evaluated on the basis of the PPPFA 80/20 point system as presented in the Preferential Procurement Regulations 2017, for this purpose SBD 6.1 form should be scrutinized, completed and submitted together with your quotation. The 80/20 point system will be as follows:

Price Assessment	80 Points
Preferential Elements	20 Points

**TECHNICAL / FUNCTIONAL EVALUATION CRITERIA:
EMPLOYEE ENGAGEMENT SURVEY - 2022****1. INTRODUCTION**

The National Health Laboratory Service (NHLS) has an obligation to fulfil its mandate and mission to: “provide pathology and laboratory services through competent professionals and state-of-the-art technology, supported by evidence-based research, training, and innovation to enhance integrated service delivery to meet the needs of the population”.

There is recognition that the NHLS needs to build upon the previous engagement survey conducted in 2017 to gather further insight on the levels of employee engagement.

2. OBJECTIVES AND APPROACH

In order to understand the levels of engagement, the following secondary objectives would need to be attained:

- To evaluate the understanding and attitudes of employees towards the organisation's vision, mission and values.
- To measure employee's commitment to their jobs.
- To allow employees to voice their opinions with regards to the organisational mandate.
- To identify factors driving and undermining commitment.

Interested service providers should include the following in their proposals:

- A detailed approach to executing the scope of work;
- A detailed costing structure for the scope of work to be carried out;
- The company's capability to deliver on the scope of work;
- Timelines; and list of three contactable references that can attest to your experience in performing similar work in similar organisations.

The NHLS objectives are:

- To achieve results through employees' enhanced business understanding;
- To remove barriers to achieving goals by promoting effective internal and external communication;
- To assist in motivation of internal stakeholders in order to improve quality, customer service and communication.
- To have an informed, motivated and professional workforce, comprising individuals who understand and share the NHLS vision, mission and values.

3. THE SURVEY

In order to gain a real understanding of NHLS employees response to the organisational mandate, it is necessary to analyse the previous survey results.

- The NHLS is seeking a tool which will allow easy hands on monitoring of employee satisfaction and engagement levels within the organisation as well as effortless monitoring of comparative figures when appropriate.
- Usage of the tool to identify the way internal customers' needs and expectations should be addressed and identifying important inputs to devising a plan for future improvement.
- A clear indication of the expectations of internal customers with regard to service / offerings from the NHLS and how well the NHLS is meeting these expectations.
- The final report should contain a list of sound recommendations on actions to improve on NHLS customer service levels.

4. COVERAGE AND SAMPLING

The previous studies undertaken by the NHLS will form the baseline, however the successful service provider should be able to demonstrate an understanding of the shortcomings of these studies. The survey should cover all internal customers in the NHLS six regions and feedback to be given to all the regions.

The total sample for the study is 2500 (30% of total staff population) and the respondents should meet the following criteria:

- The sample should cover only internal staff.
- Respondents should be drawn from a database of NHLS staff, which will be provided by the NHLS.

The service provider can also propose adequate sample sizes and motivate the reason for these.

4.1 Target Audience

The target audience for internal survey is as follows:

- Management ; Non-management ; Union representatives ; Joint appointees staff

5. METHODOLOGY

- Service provider will be required to design, develop, test and implement the internal engagement survey.
- The internal survey will take the form of a self-completion questionnaire. Each Area manager to drive the staff participation in his/her area, and the Executive will also provide the necessary support to ensure adequate employee participation.

6. DISCUSSION GUIDELINE

- As set out above under “Objectives”;
- Finalised questions to be agreed upon and finalised with the NHLS;
- Questionnaire to be piloted to ensure correct length, flow of questions, etc.;

7. TIMELINES

A project plan for the proposed survey, including timelines will be agreed with the successful provider; and once finalised, deviation will not be allowed due to operational constraints of the NHLS.

8. COSTING

Costs will be regarded as a once-off quote. Revisions to costs will not be entertained unless warranted by exceptional circumstances.

9. COMPANY PROFILE

The NHLS requires a full company profile, including the following details:

- Ability to design, develop and implement the Internal Engagement Survey as well as any prior experience in doing so. Please include an explanation of how the ‘end product’ will appear to users at the NHLS e.g. an excel dashboard, word report, etc.;
- In addition, the service provider should detail their usage and understanding of any models used in processes previously (if any) as well as a motivation for their inclusion in the current research project;
- History;
- Services offered;
- Size of company; and
- Staff profile.

10. SERVICE LEVEL AGREEMENT (SLA)

- Before commencement of the survey, a standard service level agreement must be signed by the preferred service provider.
- A confidentiality agreement must be signed once a contract is entered into and before the project commences.
- Interested providers must outline the processes that they plan to follow for the project, including how they will conduct briefings and translate interviews.
