### 5.12.2. Clause 5.12.2.: Some reasons for extension of time

### Clause 5.12.2.2: Abnormal climatic conditions.

Add the following:

Regardless of the cause of any delay an extension of time will only be considered if it can be shown that the activity delayed is on the critical path indicated on the Programme of Works (Clause 5.6.1).

No extension of time will be granted in respect of any delays attributed to normal climatic conditions. Normal climatic conditions shall be deemed to include normal rainfall and associated wet conditions and materials, strong winds and extremes of temperature. However, in the event that delays to critical activities exceed the number of working days listed below for each month, then abnormal climatic conditions shall be deemed to exist, and an extension of time shall be granted in accordance with the provisions of that clause.

The number of days quoted below shall be regarded as a fair estimate of the delays to be anticipated and allowed for under normal climatic conditions where inclement weather prevents or disrupts work on the critical path.

January	4 days	May	2 days	September	2 days
February	4 days	June	2 days	October	2 days
March	2 days	July	2 days	November	4 days
April	2 days	August	2 days	December	4 days

Claims for delays for abnormal climatic conditions shall be accompanied by substantiating facts and evidence, which shall be submitted timeously as each day or half-day delay is experienced. Should an extension of time be granted by the Engineer such extension of time will be added to the Time for Completion.

It shall be further noted that where the critical path is not affected, no extension of time for <u>abnormal</u> climatic conditions or for any other reason will be entertained. Rainfall of less than 2mm between 7am and 5pm shall not be deemed to be an inclement weather day.

The penalty for failing to complete the Works will be charges per day based on the loss suffered due to delays up to a limit of 30 normal working day, upon which automatic termination will be effected by the Employer.  5.16.3 Clause 5.16.3: Latent defect liability  The latent defect period is ten (10) years for civil engineering works.  6.8.2 Clause 6.8.2: Contract Price Adjustment  The Contract Price Adjustment is not applicable in this contract.  6.8.3 Clause 6.8.3: Variation in Cost of Special Materials  Price adjustments for variations in the costs of special materials are not allowed  6.10.1.5 Clause 6.10.1.5: Interim Payments - Materials on Site  No percentage advance on materials on site but not yet built into the Permanent Works is allowed for, or will be paid.  6.10.4 Clause 6.10.4: Delivery, dissatisfaction with and payment of payment certificate  Add the following to clause 6.10.4:  Notwithstanding the above, the Engineer shall be empowered to withhold the delivery of the payment certificate until the Contractor has complied with his obligations to report in terms of Clause 4.10.2 and as described in the Scope of Work.  8.6.1.1.2 Clause 8.6.1.1.2: Insurance  The value of the materials supplied by the Employer to be included in the insurance sum is -Nil.  8.6.1.1.3 Clause 8.6.1.1.3: Insurance  The amount to cover professional fees for repairing damage and loss to be included in the insurance sum is Nil.  8.6.1.3 Clause 8.6.1.3: Insurance  The limit of indemnity for liability insurance is R5 million for any single claim – the number of claims to be unlimited during the construction.  9.2.1.3.8 The Contractor has furnished inaccurate information in the returnable documents completed at tende stage and forming part of the Contract.
