3 BACKGROUND

Background: The automated Chemistry and Immunoassay platforms in the chemical pathology laboratory at NHLS Inkosi Albert Luthuli Central Hospital is reaching the end of the reagent contract (May 2024) and the BPA for the contract is currently depleted thus is due for replacement.

The advantages of total automation, including the Pre-analytical automation and analysers, are as follows: Reduction in pre-analytical errors, standardisation, quality improvement, removal of many manual steps, automated repeat and reflex testing, improved specimen tracking, improved turnaround time, increase throughput, improved efficiency, increase in productivity, improvement in safety and reduction in overall cost. All of these have an adverse impact on workflow and turnaround time and lead to our customers' overall loss of confidence.

Currently the laboratory does not have total laboratory automation and this is required for improved workflow for preanalytical and post analytical processes as well as storage and retrieval of samples (which is currently completely a manual process)

It seems pertinent to update the system based on potentially new technologies and improvements to the automation platform and analysers, as well as improved assay performances due to kit enhancements.

MOTIVATION

The present system had been placed in 2018 and then was replaced following damage by a fire in the laboratory in 2020 (December). Samples from the entire KZN area are referred to processed at IALCH Chem Path Laboratory. Due to imminent expiry of the current reagent tender contract and the already expired BPA it is imperative that a new system be placed.

4 SCOPE OF WORK

Chemistry: Fully Automated Track system, on-line Centrifugation, decapper and recapping systems, Middleware, Analysers to accommodate Chemistry, Endocrinology and Immunology and Serology (Immunoassay based platform) with, on-line refrigerated storage Facility and an inventory system. System must include redundancy with at least two separate chemistry analysers/modules and two separate immunoassay analysers/modules. The automation track system must be able to accommodate 3rd party analysers. Provision of a standalone chemistry analyser with offline centrifuges for stat lab services and highly contagious samples (VHF).

5. MANDATORY REQUIREMENTS

If a bidder does not comply fully with each of the mandatory requirements, it shall be regarded as mandatory non-performance/non-compliance and the bid shall be disqualified. No “unanswered” questions will be allowed. If a response to a question has been indicated as comply but not elaborated upon or substantiated it shall be regarded as mandatory non-performance/non-compliance and the bid shall be disqualified.

Bidders shall provide full and accurate answers to the mandatory questions posed in this document, and, where required, explicitly state either “Comply/Accept (with a “Yes”)” or “Do not comply/do not accept (with a “No”)” regarding compliance to the requirements. Bidders must substantiate their responses to all mandatory questions.

PLEASE NOTE: If the response does not substantiate any of the points or requirements in the body of the tender, it will be deemed to not comply, even if the ‘Comply’ field has been marked. Please note: All documentation to substantiate the mandatory requirements has to be supplied.

ANNEXURE D: National Industrial Participation (SBD5)

This document must be signed and submitted together with your bid **THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME**

INTRODUCTION

The National Industrial Participation (NIP) Program, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the program.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million shall have an NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- (a) Any single contract with imported content exceeding US\$10 million. or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2-year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content shall exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above shall amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.

1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

1.2 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

1.1 In order to ensure effective implementation of the program, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million rand), submit details of such a contract to the DTI for reporting purposes.

1.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million rand) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1. (b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million rand), to contact and furnish the DTI with the following information:

- bid or contract number.
- description of the goods, works or services.
- date on which the contract was accepted.
- name, address and contact details of the government institution.
- value of the contract.
- imported content of the contract, if possible.

3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr. Elias Malapane within five (5) working days after award of the contract. Mr. Malapane may be contacted at telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the program.

4 PROCESS TO SATISFY THE NIP OBLIGATION

- 4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps shall be followed:
- a. the contractor and the DTI shall determine the NIP obligation;
 - b. the contractor and the DTI shall sign the NIP obligation agreement;
 - c. the contractor shall submit a performance guarantee to the DTI;
 - d. the contractor shall submit a business concept for consideration and approval by the DTI;
 - e. upon approval of the business concept by the DTI, the contractor shall submit detailed business plans outlining the business concepts;
