3. SCOPE OF WORK/ SPECIFICATION

FORM OF QUOTATION SUPPLIER NAME: _____

RFQ NO: 1962101

DESCRIPTION: RFQ NO: 1962101 PROVISIONING OF ACID-RESISTANT CONTI SUIT, LENDING AND LAUNDRY SERVICES FOR A PERIOD OF 3 YEARS TO DMP NHLS SANDRINGHAM.

1. BACKGROUND

Section 8 of the Occupational Health and Safety Act 85 of 1993, stipulates that every employer shall provide and maintain, as far as is reasonably practicable, a working environment that is safe and without risk to the health of its employees. Conti Suits form part of the basic Personal Protective Equipment (PPE) required to ensure the safety of laboratory staff as they work with hazardous material daily.

A conti-suit, also known as a "cotton overall" or "work suit", is a two-piece set of protective clothing designed for various work environments. It typically consists of a jacket and trousers made from durable materials like cotton or polyester-cotton. The work suit protects the user from exposure to hazardous biological agents and hazardous chemical substances. In 2013, tender RFB 018/12/13 was adjudicated and awarded to First Garment Rental for a period of three years. The contract expired on the 30th of June 2016 and operated on a month-to- month basis.

The tender, RFB003/23/24: Supply, delivery, maintenance and laundering of laboratory coats for NHLS laboratory staff (Nationally) for a period of five years was intended to include both Lab Coats and Conti Suits; however, the technical specifications for the Conti Suits were inadvertently omitted during finalization, with only sizing details provided. Currently, DMP staff don't have Conti-suits to execute their daily tasks when working with hazardous materials.
