REASON FOR ERRATUM

Kindly note there was an error with the background, Scope of works and addition of item 5.7 under technical suitability: mandatory requirements

You are hereby requested to approve the Erratum reflecting the corrected background and scope of works and the removal of item 5.7 under technical suitability: mandatory requirements

Mandatory requirement No. 5.7 that read as follows:

Manufacturer must provide in line water systems on site for provision of water to chemistry and immunoassay analysers and be responsible for ensuring plumbing, draining and other requirements are met at the supplier's costs. Water must meet quality standards and flow capacity required for the analysers.

This mandatory requirement is not part of the approved specifications therefore must be removed.
